## Acknowledgements

I would like to thank the following people and organizations who helped in making of the present work possible: first and foremost the whole team of the Gebelein Archaeological Project, PCMA, University of Warsaw, who on and off-site were extremely helpful in all manners: Julia Chyla, (for the maps and geographical measurement/technical support especially) and Wojtek Ejsmond, the motors behind the expeditions, for inviting me to the site and letting me work on the material, and providing me with their invaluable help in many stages of the work. The articles written and conference presentations done together were especially important. Dawid F. Wiczorek (for all his ideas as well) and Piotr Witkowski for helping to create the grid of the speos and Piotr for the professional photographic works. Arkadiusz Ostasz and Lawrence Xu-Nan for the cleaning and conservational works of the walls. Vincent Oeters for the great job and many hours spent together while conducting the floor cleaning works helped out by Mina Ilic. Marzena Ozarek-Szilke, Michal Madej and Taichi Kuronuma for their technical and sometimes physical support. Special thanks go to the inspectors present during the works in the speos: Mamduh Saad Mostafa; Ali Mohamed Ahmed; Mohammedel-Amir Mohammed Ahmed, Adel Mousa Ahmed Ali and to the directors of the inspectorate in Esna: Abdelhady Mahmoud and Ahmed Hasan Amin who were all very helpful all along. I would like to also thank our local workers and in particular Jusuf for their help!

I would like to express my personal gratitude for the scholarly guidance and help in all matters towards my supervisor, Professor Dr hab. Kamil O. Kuraszkiewicz, for the help regarding many questions concerning the speos to Dr Andrzej Ćwiek, Dr Filip Taterka, and Dr Jadwiga Iwaszczuk, and for the many excellent remarks regarding the religious and different other aspects of the chapel my friend, Gábor W. Nemes.

Any other contribution I received and not mentioned here is not because of its lack of merit but due to my forgetfulness, but I'm very thankful for all the help that I have received!

The present work would have not been possible to realize if not for the support of the University of Warsaw and the Polish Centre of Mediterranean Archaeology, the Rada Konsultacyjna do Spraw Studenckiego Ruchu Naukowego UW and the University of Warsaw Foundation. Special thanks are to be made to the International Visegrad Fund, who funded my work during the academic year 2016-2017 and ZIP UW granting me a scholarship for the academic years 2018-2021.
